NEWS FROM THE BOARD – JANUARY 2012

HAPPY NEW YEAR!

I hope that this famous year 2012, which holds a lot of different kind of promises according to what you read, will bring you all that you wish for or more.

We met in Paris for the annual in-person board meeting and we enjoyed working together for IASK. It is much better to meet than to hold virtual boards on Skype and we parted on Sunday feeling very inspired by the results of this 3-day meeting.

One of them was the finalizing of a questionnaire. We invite you to answer it. It will only take a few minutes and a few clicks and you end by clicking on KLAR at the bottom of the page!

So please, go to : <http://www.surveymonkey.com/s/VC2FFGT>

We prepared our 2012 AGM, which is scheduled in San Francisco on Friday 15th June, during the joint Conference with EnKA, our American Associate Member. There are great workshops to attend, too! See the list of speakers at:

<http://www.energyk.org/index.php/annual-conference/speakers>

If you have not registered yet, please go to:

<http://www.energyk.org/index.php/annual-conference/x>

We also started preparing our 2013 Conference, which will take place May 16th-19th, 2013 in Rio de Janeiro, Brazil. It is going to be a chance in a lifetime to visit this extraordinarily contrasted and rich country! We are looking at hotels with a view on Copacabana beach, and will try and get special prices for those of you who might want to stay longer or come earlier. We will soon send a call for speakers and for presenters of 'My Very Best Idea'.

If you have not read our Fall Newsletter yet you can find it on the website at <http://www.iask.org/en/newsletters>

We are looking forward to reading the results of the questionnaire and will compile them for you in our next News from the Board. And of course we welcome heartily any feedback you might want to give us !

Warm regards,

Nicolette Peyre
on behalf of the IASK Board
